PROFILE SUMMARY

"To leverage my expertise in Laravel, JavaScript, PHP, and front-end technologies like HTML5, CSS, and Bootstrap 5 to develop innovative and userfriendly web applications. I aim to contribute to an organization's growth while continuously enhancing my technical and problem-solving skills in a challenging and dynamic work environment."

WORK EXPERIENCE

netzur PVt LTD   JULY 2024 - NOV 2024
- Back-End Devloper

Recipe manegement system

- This Recipe Management System built with PHP Laravel 11, HTML5, CSS, and Bootstrap 5 allows users and admins to manage and share recipes.
- Admin: Can edit, delete, and review recipes, add categories/units, view all user proles, and block users.
- User: Can create and manage proles, post recipes, and view other users' proles and recipes.
- OTP Verification: Added during registration for enhanced security

Billing software

- This Billing Software built with PHP Laravel, HTML5, CSS, and Bootstrap 5 enables businesses to efciently manage billing tasks. Users can create, update, and track bills, download them as PDFs for printing, and export billing data to Excel for easy record-keeping. With a responsive design and powerful features, this software offers a comprehensive solution for managing invoices and nancial data.

Fixtora – Home Service Booking Platform

- Laravel, MySQL, HTML, CSS, Bootstrap, Tailwind, Stripe
- Developed a multi-role home service booking web application with Admin, User, and Service Provider roles. Implemented Stripe for online payments, live service search, email & in-app notifications. Users can book services, view packages, save addresses, and apply to become service providers. Admins manage categories, users, payments, and provider applications. Service Providers manage services, bookings, and payments through a dedicated dashboard.
